

## Application

The SSR-845 extruded aluminum sunshade is designed to provide distinctive style to a building's exterior while keeping the building cool and saving energy by reducing glare and thermal load. It is ideal for sustainable or 'green' building construction. The SSR-845 is available in a wide array of anodized and painted finishes including custom color matching.

## Standard Construction

**Material:** Mill finish 6063-T5 extruded aluminum.

**Outrigger:** 8" high x 0.250" thick (203 x 6.4) plate with flat front.

**Blades:** 0.125" thick (3.2) thick rectangular tube style.
